

I am an individual concerned about the possibility of LPFM stations taking priority over current FM translator services such as the K-LOVE stations. In a world where negative topics seem to dominate, it is nice to have a station that is positive and encouraging to all ages. When K-LOVE is playing, parents and/or concerned individuals do not have to monitor what is being heard. Removing such a station would disallow K-LOVE communities to share their freedom and privilege of transmitting information and entertainment that is worthwhile for the whole family. Please reconsider removing the K-LOVE station!!!
